

## State Reporting Modules

We continue to develop State Reporting Modules for Centre! We've added New Hampshire, New York, Maine, Illinois, Montana, Michigan, Vermont, Indiana, Arkansas, California, and Colorado. and others. Our newest additions are Pennsylvania (PIMS), CALPADS and Idaho.

State Reporting Modules give Centre users the ability to click on a single set of links to generate all the reports needed by your state Department of Education. "Beginning-of-Year", "End-of-Year", attendance and/or enrollment reports, grades, attendance and other information are all available instantly.

California State Reporting includes all CALPADS reports, Star Pre-ID, Star ID and attendance reports. Arkansas works with APSCN (Arkansas Public School Computer Network) and features automated DAILY state reporting to the DOE attendance, grades, scheduling and demographics requirements.

If you need help with your state reporting, or just some special report for your school or district, just contact us at [info@glenn-abbey.com](mailto:info@glenn-abbey.com).
